*Tall dreams are the materials for great futures...*

*...Dream tall*

Special points of interest:

- Busy fingers a column for interesting research by members
- Pathology meetings in Africa and worldwide

## PRESIDENTS ADDRESS

It gives me great pleasure to write the address for the premier issue of our divisional newsletter. This project has been on the board for a while and after several hiccups is coming to you finally.

The idea of a newsletter is to bring members up to date about events in our division, as well as important events in other divisions of the IAP.

Members are enjoined to forward information to the editor for consideration to be included in the newsletter of this division, which will soon become a large volume giving the contents that are considered worthy of

publication here.

As discussed, the frequency of publication will be maintained if members contribute enough material. Also this edition will probably be the only one that will be in hard copy while others coming after will be e-copies only. Members are enjoined to visit the website regularly for new information.

I congratulate the editor and her team as well as the secretary and the other active members for seeing to the final emergence of our newsletter. I wish you God speed and more grease to sustain.

— J. Olufemi Ogunbiyi

## FROM THE SECRETARY-GENERAL

In 2009, AWADIAP had its annual USCAP & Friends of Africa sponsored Surgical Pathology meeting .

The Meeting took place at the University College Hospital Ibadan, Oyo State from the 24th-28th August 2009. The Guest Lecture was “Pathology of Breast Tumours” given by

Dr Syed Hoda of the Weil Cornell Medical College, New York. Other members of Faculty included Dr Rana Hoda, New York; Dr Armando Fraire, Boston; Dr Josefina Heim, Texas; Dr Debra Kearney, Texas; Dr Tarik Tihan, California and our own dear ambassador to the

USA, Omoba (Dr) Adekunle M. Adesina. It was an intellectual feast.

The Federal Minister of Health Prof Babatunde Osotimehin was the Special Guest of Honour.
